Okanagan Basin
WATER BOARD

Take simple actions to help keep invasive mussels away.

Invasive zebra and quagga mussels are tiny, but they're a big threat. If you are coming into the Okanagan with ANY watercraft, ensure to stop at ALL watercraft inspection stations. Pull the plug, it's the law and clean, drain, dry your watercraft and gear before entering Okanagan waterways.

Visiting from infested areas?

Consider renting watercraft here, it's easier and safer for our waters.

Know someone visiting our lakes?

Encourage them to rent their watercraft here, and stop at all inspection stations if bringing watercraft.
